Income Calculation: IRS Form 1040 Adjusted Gross Income

Citizens of the United States and resident aliens, except those with gross incomes that fall below a certain level, are required to file an income tax return with the Department of Treasury's Internal Revenue Service (IRS) each year. The tax return is officially referred to as IRS Form 1040. The definition of adjusted gross income is based on this form, also commonly referred to as "the long form."

The Adjusted Gross Income (AGI) is listed on the 1040 tax form and is the dollar figured used to determine an applicant's income eligibility for participation in the Flood Recovery Home Repair Program. Households must certify that their current income has not increased more than 20% over the reported adjusted gross income on their most recent Form 1040. If a household's income has increased more over 20% of the reported Adjusted Gross Income, the household must submit current income verification for their eligibility to be determined. A list of documents to be submitted is on page 13 of this application.

For households who are not required to file federal taxes because their gross income falls below a certain level, the city will calculate income based on the current income received by the household. A list of documents required to be submitted is on page 13 of this application.

****Please note****

- ❖ ***Priority for assistance*** will be given to households who are/were living in mobile/manufactured housing, elderly, and/or disabled.
- ❖ The Flood Recovery Rehabilitation Program is for ***owner-occupied homes at the time of the September 2013 flood.*** All people listed on the warranty deed or title to the home must have been living in the home and be considered part of the household. Exceptions apply for permanently absent household members.

**CITY OF LONGMONT
CDBG-DR REIMBURSEMENT
GUIDANCE TO PROPERTY OWNERS**

Under the Community Development Block Grant Disaster Relief (CDBG-DR) funds, homeowners are allowed to be reimbursed for costs they have already undertaken to rebuild, repair, and/or mitigate their homes due to flood damage receive in the September 2013 flood in Longmont.

GUIDANCE

- The City is restricted by the federal government regarding its reimbursement to homeowners of costs that have been incurred by the homeowner *after* the Time of Application (the date on which they submitted their application to the City of Longmont). Therefore, any work continued or completed by the homeowner after an application has been submitted to the City for the Home Repair Program will likely make that work ineligible for the reimbursement funds.
- Homeowners are advised that it is their choice to continue home repair work after they have submitted their Home Repair application; however, it is in their best interest to stop ongoing construction and repairs in order to maximize the costs that CAN be covered by the reimbursement funds.
- It is the homeowner's decision to continue with repair or work or to stop any work after they have submitted an application to the City. This guidance is only to alert them of the risks associated with a decision to continue work.
- Homeowners that have completed or started any flood related repair work are advised to keep all receipts of money spent to date on activities related to the rebuild, repair and mitigation of their property for possible reimbursement.
